

ISRAEL JOURNAL OF ENTOMOLOGY

THE ENTOMOLOGICAL SOCIETY
OF ISRAEL

VOLUME X 1975

The drawing on the front page depicts the female of *Urophora syriaca* Hendel, listed in the paper by Kugler and Freidberg in this volume. Drawing especially prepared for this volume by W. Ferguson.

Biological Research
Ness Ziona

A journal devoted to all aspects of Entomology. Authors are entirely responsible for statements, whether of fact or opinion.

Subscription: Members of the Israel Entomological Society: IL. 15.- (Membership fees - additional IL 50.-). Non-members \$10.00 + postage. Correspondence for subscription: Secretary, Entomological Society, Israel c/o Volcani Institute of Agricultural Research, Bet-Dagan, P.O.Box 6, Israel.

Manuscripts, in English only, are considered on the understanding that their contents should not be published elsewhere in substantially the same form; if a preliminary announcement relating to the contents of the paper has already been published, this must be stated.

Papers should be concisely written; the 'Style Manual for Biological Journals' contains much useful guidance. Manuscripts must be typed, with double spacing, on one side of paper of uniform size. Titles should be concise, followed by a short descriptive Abstract, indicative of the aspects of the subject dealt with but not summarizing the results or conclusions.

Scientific names should be underlined and followed by the name of the first describer (written out in full, except for Linnaeus (L.) and Fabricius (F.).)

Tables should be kept to a minimum and, unless very short, must be typed on separate sheets, their approximate position being indicated in the manuscript. The same data should not be given both in tables and graphs.

All references cited in the text must be included in the list of references at the end of the paper. They should be arranged in alphabetical order as follows:

De Bach, P. 1969. Uniparental, sibling and semi-species in relation to taxonomy and biological control. *Israel J. Entomol.* 4:11-28.

Tables and periodicals must be abbreviated as laid down in World List of Scientific Periodicals 4th Edition. 1964.

Authors are entitled to receive 30 copies of their paper free of charge. Additional copies may be ordered before publication.

TABLE OF CONTENTS

BEN-DOV, Y., M.L. WILLIAMS and C.H. RAY Jr. - Taxonomy of the Mango Shield Scale <i>Protopulvinaria mangiferae</i> (Green) (Homoptera: Coccidae:)	1
BLUMBERG, D., SWIRSKI and S. Greenberg - Evidence for Bivoltine Populations of the Mediterranean Black Scale, <i>Saissetia oleae</i> (Olivier) on Citrus in Israel	19
GERSON, U. - A Soft Scale as an Urban Pest	25
NATH, V., P.K. MITTAL and C. SHEIKHER - Necrosis Induced by Tapa in the Gonads of <i>Locusta migratoris</i> (L.)	29
LINDNER, E. - On Some Stratiomyidae (Diptera) from the Near East	41
KUGLER, J. and A. FREIDBERG - A List of the Fruitflies (Diptera: Tephritidae) of Israel and Nearby Areas, Their Host Plants and Distribution	51
MORGAN, N.O. and J.J. EBY - Fly Protein Production from Mechanically Mixed Animal Wastes	73
YATHOM, S. - Flight Patterns of Moths as an Aid in the Study of Their Phenology and Ecology in Israel.	83
RAGUSA, S. and E. SWIRSKI - Feeding Habits, Development and Oviposition of the Predacious Mite <i>Amblyseius swirskii</i> Athias-Henriot (Acarina: Phytoseiidae) on Pollen of Various Weeds.....	93
KENNETH, R. and Y. OLMERT - Entomopathogenic Fungi and Their Insect Hosts in Israel; Additions	105

LIST OF NEW TAXA DISCUSSED IN VOLUME X

DIPTERA

Page

<i>Adoxomyia hermonensis</i> Lindner	44
<i>Adoxomyia personata</i> Lindner	45
<i>Heraclina galeata</i> Lindner	46
<i>Nemotelus freidbergi</i> Lindner	43

OF AGRICULTURAL INSECTICIDES**

EXPORT INQUIRIES: PAZCHEM LTD., P.O.B. 1977, TEL AVIV, ISRAEL

**seven years of plenty—followed by seven years of famine...
centuries ago joseph helped pharaoh solve his problem...**

...with the world's first Food Reserve Storage System. But today, in spite of constant advances in agriculture and technology, famine still stalks large areas of the earth — and our globe's food supplies are not yet distributed equally or where they are most needed.

We at MAKHTESHIM-AGAN* are helping to fill the food baskets and storage silos of the world by providing farmers on all five continents with crop protection chemical products...

synthesized, formulated and tested in Israel.

Just as in Pharaoh's time, the ravages of climate and pests can turn hopes into disasters. Crop protection chemicals are one effective safeguard in a world which must be adequately fed.

Koor Chemicals exports reached a new record in 1974: 52 million dollars including paints, pharmaceuticals and other chemicals.
